Mandeville High provides free after-school tutoring for all students. The tutoring sessions are held in the room 103 (or the library) from 2:36 – 3:30 on Mondays and Wednesdays. Teachers and students are available to help students in English, Math, Science, Social Studies and Foreign Language. This is a fantastic opportunity for students to receive additional help. Many teachers offer help sessions in their classrooms and students should also take advantage of these opportunities particularly if they are struggling in one specific subject.
